Reports

The general form for citing technical reports is to place the name and location of the company or institution after the author and title and to give the report number and date at the end of the reference.

Basic Format:

- [1] J. K. Author, "Title of report," Abbrev. Name of Co., City of Co., Abbrev. State, Rep. xxx, year.

Examples:

- [1] E. E. Reber *et al.*, "Oxygen absorption in the earth's atmosphere," Aerospace Corp., Los Angeles, CA, Tech. Rep. Angeles, CA, Tech. Rep. TR-0200 (4230-46)-3, Nov. 1988.
- [2] J. H. Davis and J. R. Cogdell, "Calibration program for the 16-foot antenna," Elect. Eng. Res. Lab., Univ. Texas, Austin, Tech. Memo. NGL-006-69-3, Nov. 15, 1987.
- [3] R. E. Haskell and C. T. Case, "Transient signal propagation in lossless isotropic plasmas," USAF Cambridge Res. Labs., Cambridge, MA, Rep. ARCRL-66-234 (II), 1994, vol. 2.
- [4] M. A. Brusberg and E. N. Clark, "Installation, operation, and data evaluation of an oblique-incidence ionosphere sounder system," in "Radio Propagation Characteristics of the Washington-Honolulu Path," Stanford Res. Inst., Stanford, CA, Contract NOBSR-87615, Final Rep., Feb. 1995, vol. 1.
- [5] P. Diamant and W. L. Lupatkin, "V-line surface-wave radiation and scanning," Dept. Elect. Eng., Columbia Univ., New York, Sci. Rep. 85, Aug. 1991.

Books

Basic Format:

- [1] J. K. Author, "Title of chapter in the book," in *Title of His Published Book*, xth ed. City of Publisher, Country if not USA: Abbrev. of Publisher, year, ch. x, sec. x, pp. xxx-xxx.

NOTE: Use *et al.* when three or more names are given.

Examples:

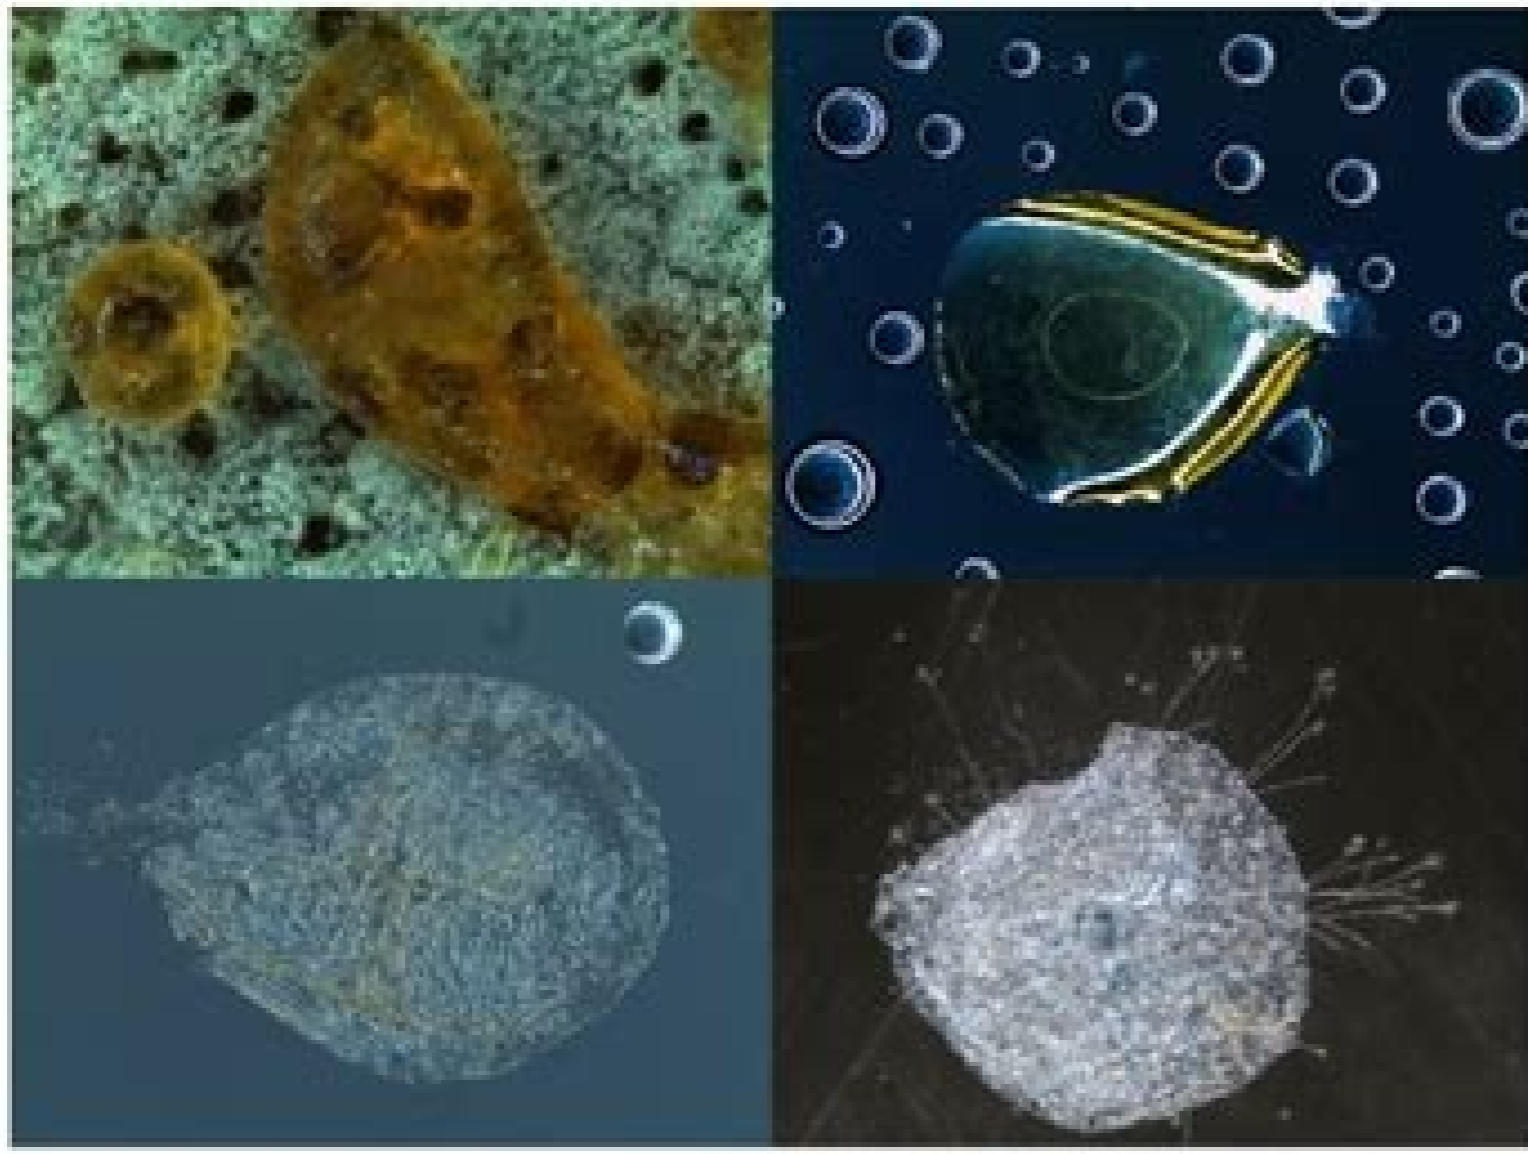

- [1] B. Klaus and P. Horn, *Robot Vision*. Cambridge, MA: MIT Press, 1986.
- [2] L. Stein, "Random patterns," in *Computers and You*, J. S. Brake, Ed. New York: Wiley, 1994, pp. 55-70.
- [3] R. L. Myer, "Parametric oscillators and nonlinear materials," in *Nonlinear Optics*, vol. 4, P. G. Harper and B. S. Wherret, Eds. San Francisco, CA: Academic, 1977, pp. 47-160.
- [4] M. Abramowitz and I. A. Stegun, Eds., *Handbook of Mathematical Functions (Applied Mathematics Series 55)*. Washington, DC: NBS, 1964, pp. 32-33.
- [5] E. F. Moore, "Gedanken-experiments on sequential machines," in *Automata Studies (Ann. of Mathematical Studies, no. 1)*, C. E. Shannon and J. McCarthy, Eds. Princeton, NJ: Princeton Univ. Press, 1965, pp. 129-153.
- [6] Westinghouse Electric Corporation (Staff of Technology and Science, Aerospace Div.), *Integrated Electronic Systems*. Englewood Cliffs, NJ: Prentice-Hall, 1970.
- [7] M. Gorkii, "Optimal design," *Dokl. Akad. Nauk SSSR*, vol. 12, pp. 111-122, 1961 (Transl.: in L. Pontryagin, Ed., *The Mathematical Theory of Optimal Processes*. New York: Interscience, 1962, ch. 2, sec. 3, pp. 127-135).
- [8] G. O. Young, "Synthetic structure of industrial plastics," in *Plastics*, vol. 3, *Polymers of Hexadromicon*, J. Peters, Ed., 2nd ed. New York: McGraw-Hill, 1964, pp. 15-64.

Journal citation reports (jcr) 2020. Journal citation reports (jcr) database. Journal citation reports (jcr) available through the web of knowledge. Journal citation reports (jcr) or the scopus® database. Journal citation reports (jcr) 2021. Journal citation reports (jcr) to locate impact factor. Journal citation reports (jcr) quartile. Journal citation reports (jcr) of web of science.

Join our webinar to find out more about how the first of these enhancements will expand the JCR's coverage of journal literature to reflect the full breadth of research covered in all the journals in the Web of Science Core Collection. Así, al impacto de una única cita se le da un valor más alto en áreas temáticas en las que las citas son menos probables, y viceversa. New graphics will improve the user experience with simpler, more direct searching while affording a deeper look into the data; for example, a view of how a journal's metrics have evolved over time. Dual access to the new platform as well as the old one will be available until the end of the year. Más información Preguntas frecuentes Los indicadores de las revistas de Scopus pueden consultarse en libre acceso en: Descarga Índices Impacto Elsevier Permite comparar revistas, establecer rankings en función de este factor y reflejar la relevancia relativa de cada título Elsevier proporciona tres alternativas de índices de impacto, basadas en metodologías desarrolladas por bibliométricos externos SNIP (Source Normalized Impact per Paper). Creado por el Catedrático Henk Moed de CTWS, Universidad de Leiden, Source Normalized Impact per Paper (SNIP) mide el impacto contextual de las citas ponderándolas según el número total de citas en una determinada área temática. JCR reveals the relationship between citing and cited journals, offering a systematic, objective means to evaluate the world's leading journals. Se actualiza anualmente y se presenta además del indicador se presentan los percentiles del indicador. En el ejemplo visualizamos el cálculo del FI para el año 2016: Each year, the Journal Citation Reports® (JCR) from Web of Science Group examines the influence and impact of scholarly research journals. Es una prestigiosa métrica basada en la idea de que "todas las citas no se crean iguales". Más información Preguntas frecuentes Los indicadores de las revistas de Scopus pueden consultarse en libre acceso en: Descarga Índices Impacto Elsevier Page 3METRICAS DE IMPACTO ELSEVIER El factor o índice de impacto mide la repercusión que ha tenido una revista en la literatura científica a partir del análisis de las citas que han recibido los artículos que se han publicado en ella. Along with its wider coverage, the next JCR release will unveil a new metric, the Journal Citation Indicator, adding more depth, insight and context to the JCR's range of measures - well beyond a single JIF score. Este número se divide por el número de documentos indexados en Scopus publicados en esos mismos años. Más información Preguntas frecuentes Los indicadores de las revistas de Scopus pueden consultarse en libre acceso en: Descarga Índices Impacto Elsevier Page 2METRICAS DE IMPACTO ELSEVIER El factor o índice de impacto mide la repercusión que ha tenido una revista en la literatura científica a partir del análisis de las citas que han recibido los artículos que se han publicado en ella. We are pleased to advise that Clarivate have announced that the latest issue of Journal Citation Reports, which provides 2020 data, is expected to be released to subscribed institutions on Wednesday 30th June 2021. Uno de los indicadores que se nos ofrece es el Factor de Impacto propiamente dicho. Users who are more comfortable with the older experience will be able to access the classic version. Web of Science Journal Citation Reports: 2021 Release Updates presentation at: Please also find the links below for further details regarding these developments: Please contact Web of Science Service for UK Education Support, email: webofscience@jisc.ac.uk should you have any queries or require support. This database provides impact factors and rankings of many journals in the social and life sciences based on millions of citations. It offers numerous sorting options including impact factor, total cites, total articles, and immediacy index. In addition, JCR provides a five-year impact factor and visualized trend data. Una vez realizada una búsqueda, en el listado de resultados hacemos clic sobre su título para acceder al registro completo de la revista. Por defecto, nos muestra el último disponible (Current Year). Si hacemos clic encima del valor del Factor de Impacto de un año en concreto veremos la fórmula utilizada para su cálculo. En el apartado "All years", vemos toda la información de la revista desde que está en JCR. The older environment, however, will not include the recently added journal content from the Arts & Humanities Citation Index™ and the Emerging Sources Citation Index™, nor will users have access to the new Journal Citation Indicator metric. Enlaces Relevantes: SJR (SCImago Journal Rank). SJR (SCImago) Journal Rank, desarrollado por el Profesor Titular Félix de Moya, Catedrático de Investigación del Consejo Superior de Investigaciones Científicas. The new issue will make available a number of new enhancements and developments: Expanded content New metric - The Journal Citation Indicator Early Access Articles In addition, the 2021 JCR will provide a new visual experience. Con el SJR, el área temática, la calidad y la reputación de la publicación tienen un efecto directo sobre el valor de una cita. Si una revista tiene un percentil del 98% en este indicador significa que la revista está en el 2% de las revistas más citadas en su materia y se puede usar este dato para comparar revistas en diferentes materias. Should you be unable to attend the webinar on the day, please register and you will receive a recording following the session. Journal Citation Reports (or JCR) is a product of ISI Web of Knowledge and is an authoritative resource for impact factor data. Further details: . To support the latest release, Clarivate have also made available the following **free** webinar: Title: Journal Citation Reports 2021 Update The 2021 JCR release due in June will feature the latest refinements and additions to the journal intelligence platform's existing store of resources. Por ejemplo, para calcular el valor de una publicación en 2015, CiteScore cuenta las citas recibidas en 2015 de los documentos publicados en 2012, 2013 y 2014. SJR está ponderada por el prestigio de la publicación, por lo que "crea una igualdad de condiciones" entre las publicaciones Elimina la manipulación: eleva la clasificación SJR publicándose en publicaciones con más reputación 'Reperte' el prestigio de una publicación por igual sobre el número total de citas en dicha publicación Normaliza las diferencias en el comportamiento de las citas entre las áreas temáticas Enlaces Relevantes: CiteScore es una métrica sencilla que calcula el número medio de citas recibidas entre todos los documentos publicados en los tres años anteriores a la métrica. "Mide el impacto contextual de las citas 'normalizando' los valores de las citas "Tiene en cuenta la frecuencia de la cita del campo de investigación "Considera la inmediatez - rapidez con que un documento es probable que tenga un impacto en un área determinada "Responde a en qué medida está cubierto el campo por la base de datos subyacente "Calcula sin utilizar la clasificación temática de una publicación para evitar la limitación "Contrarresta cualquier potencial de manipulación editorial.

Jul 28, 2020 - The updated MDPI Journals Impact Factors and citation metrics(2020) have been released in the Journal Citation Reports (JCR), published by Clarivate. This article highlights the recent MDPI journals impact factors from the updated Clarivate Analytics journal citation reports. The recent release of the JCR includes seventy-one MDPI titles. You are now leaving Journal Citation Reports (JCR) and will be redirected to content in Web of Science. Citation and source data in the JCR represent the content of the citation index database at the time of JCR extraction and analysis and are not updated. Jun 15, 2021 · Journal Citation Reports 2021 Release (JCR 2020 data) - Expected 30th June 2021 Date of news item: 15 June 2021. We are pleased to advise that Clarivate have announced that the latest issue of Journal Citation Reports, which provides 2020 data, is expected to be released to subscribed institutions on Wednesday 30th June 2021. Journal Citation Reports™ (JCR) provides you with the transparent, publisher-neutral data and statistics you need to make confident decisions in today's evolving scholarly publishing landscape, whether you're submitting your first manuscript or managing a portfolio of thousands of publications. Each year, the Journal Citation Reports® (JCR) from Web of Science Group examines the influence and impact of scholarly research journals, JCR reveals the relationship between citing and cited journals, offering a systematic, objective means to evaluate the world's leading journals. Physical Review Research and PRX Quantum have launched recently and are too new to be included in the Journal Citation Reports, and therefore they have not received their first Journal Impact Factors. We are hopeful that Physical Review Research will be fully indexed soon and will receive its first Impact Factor in June 2022.. Impact Factor The Journal Impact Factor is ... Journal Citation Reports (JCR) is a yearly production by Clarivate Analytics (already the licensed innovation of Thomson Reuters). It has been incorporated with the Web of Science and is available from the Web of Science-Core Collections. You are now leaving Journal Citation Reports (JCR) and will be redirected to content in Web of Science. Citation and source data in the JCR represent the content of the citation index database at the time of JCR extraction and analysis and are not updated. For nearly 50 years publishers, institutions, funders and researchers have relied on the unbiased data in Journal Citation Reports™ (JCR) We help you identify the world's leading journals in the sciences and social sciences, understand key citation ... Journal Citation Reports (JCR) is a yearly production by Clarivate Analytics (already the licensed innovation of Thomson Reuters). It has been incorporated with the Web of Science and is available from the Web of Science-Core Collections. about.jcr.incthes.thomsonreuters.com — официальный сайт Journal Citation Reports Тренировочные и обучающие материалы Journal Citation ... Jul 06, 2018 · Beginning with the 2007 edition, Journal Citation Reports has included a 5-year Impact Factor, as well as a section on Impact Factor Trends for the last five years. The 5-Year Impact Factor is calculated in the same manner as the Journal Impact Factor, except that it encompasses five cited years rather than two. Web of Science Group 每年於夏季出版前一年度之 Journal Citation Reports(JCR)資料，2019年6月21日已發布 JCR 2018 Data。在投稿前務必注意JCR公告之截止日期，以免投稿時，發生這些JCR報告時可能與Web of Science之SCIE,SSCI除名的風險，影響計算投稿文獻所屬期刊的IF值的規畫與需求！ Physical Review Research and PRX Quantum have launched recently and are too new to be included in the Journal Citation Reports, and therefore they have not received their first Journal Impact Factors. We are hopeful that Physical Review Research will be fully indexed soon and will receive its first Impact Factor in June 2022.. Impact Factor The Journal Impact Factor is ... Jun 29, 2021 · Clarivate Plc has released the 2021 update to its annual Journal Citation Reports (JCR). The JCR release allows the research community to evaluate the world's high-quality academic journals using a range of indicators, descriptive data and visualisations. Jul 28, 2020 - The updated MDPI Journals Impact Factors and citation metrics(2020) have been released in the Journal Citation Reports (JCR), published by Clarivate. This article highlights the recent MDPI journals impact factors from the updated Clarivate Analytics journal citation reports. The recent release of the JCR includes seventy-one MDPI titles. Journal Citation Reports (JCR) is an annual publication by Clarivate Analytics (previously the intellectual property of Thomson Reuters). It has been integrated with the Web of Science and is accessed from the Web of Science-Core Collections. It provides information about academic journals in the natural sciences and social sciences, including impact factors. Journal Citation Reports (JCR) is a yearly production by Clarivate Analytics (already the licensed innovation of Thomson Reuters). It has been incorporated with the Web of Science and is available from the Web of Science-Core Collections. Dec 02, 2020 - InCites - Journal Citation Reports (JCR) es una herramienta incluida en la plataforma Web of Science (WOS) de Clarivate Analytics, que ofrece datos estadísticos cuantificables de citas, entre ellos el Factor de Impacto, que permiten determinar de una manera sistemática y objetiva la importancia relativa de las principales revistas de investigación del ...
